

HUBA side table 60x41 cm

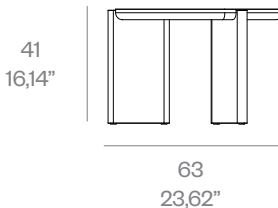

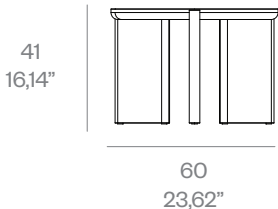

design by: Maja Ganszyniec 2022

A family of wooden coffee tables in two sizes and heights.

The circular top, rounded on the bottom edge, resting on three massive legs, resembles a polypore (shelf fungi). The tables work separately or as a pair. The higher table slides partially over the low one, creating an organic composition and a comfortable arrangement for a sofa or an armchair.

Made of solid wood, the tabletop finish shows the true character of this material. The complex lines of the visible grain create diamond drawing, so unique for the European species of oak.

Shipment details

Quantity	1 table (1 box)
Volume	0,05m ³ / 1,76 ft ³
Weight	11 kg / 24,25 lb
Item dimensions (width x depth x height)	68 cm x 70 cm x 11 cm

* File CAD 2D - 3D available for customer's request.

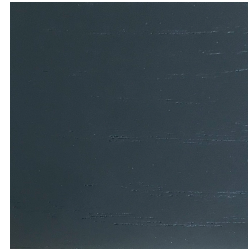

Spaces—homes, co-works, lobbies	Country of Production—Poland
Matching product—LUKRECJA armchair	Materials—solid oak
Enviroment—Indoor	Preassembled—No
Health & Safety—only water based varnishes	Spare Parts—No

Care

Clear matt lacquer, Anthracite and Dark oak matt lacquer / Oak Wood

Finish: Clear matt lacquer provides an easy to care for durable finish that doesn't compromise the natural beauty of the wood grain and natural light color. Nurt's laquered furniture is finished with an Eco friendly water based laquer.

Care: We recommend that all kitchenware and beverages should be placed on mats or coasters and any spillages should be wiped away immediately.

Cleaning: To clean, wipe with a damp cloth before buffing with a dry cloth. In the event of more stubborn marks, a solution of mild detergent should be used on the cloth. Silicone based polishes should not be used on the wood as they will build up and leave a sticky residue on the Surface

Oil/ Oak wood

Finish: applied by hand. the pre-oiled finish enhances the open grained appearance of the wood giving it a slightly more rustic,matt finish. Nurt's oiled furniture is finished with an Eco friendly oil.

Care: We recommended to wipe up all liquids as soon as possible before the liquid has the opportunity to soak into the wood.

Despite having already been pre-oiled, as best practice, we would also recommend that you oil the table surface on a six month to yearly basis depending on its usage. Take care not to over-oil & always test the oil on a small, unseen area before applying a full coat and let then furniture soak the moisture for about an hour.

Cleaning: To clean, wipe down with a soft, barely damp cloth to remove any dust. In the case of stubborn marks, a solution of mild detergent such as washing up liquid should be used on the cloth. Avoid the use of scourers or bleaches. In the event of severe spillages and stains the surface can be re-oiled. However it is recommended that you consult our customer services department or a professional furniture restorer before doing so.
